### Bonus Tip!

Does your kiddo already have a favourite storytime read?

Why not try brainstorming a list of topics from their number one pick and search for more titles that match those interests.

For example, one my faves, *The Old Truck* by Jarrett and Jerome Pumphrey could send me looking for books about trucks, families, farms, or even rocket ships. It could also take me to other books by the same author(s), like the Pumphrey Brothers' brand new book, *The Old Boat*.
